Report

Report

The celebration began by remembering Jyotiba Phule. To illustrate the numerous achievements made by successful women, a PPT was shown. It is important for women to know their strengths and to respect themselves.

After this, one of the recent courage outstep toward creating a better present and future was the hygiene programme. The workshop was organised with an aim of spreading awareness of self hygiene within the budding young females. Dr. Maya Narayan Arvikar (Gynaecologist) provided a lot of essential information related to women's daily hygiene and their health issues. Nowadays women go through various diseases like irregular menstrual cycle, PCOD/PCOS, white discharge from intimate areas, thyroid and so on. In this session, Dr. Maya Arvikar gave a detailed information about these problems and also suggested some remedies for them. She suggested some diet plans for females going through obesity which is one of the major cause for these diseases with an animated short film named "Hello Periods!"

It was an interactive session where many questions were asked, answers were given and doubts were solved. The students also pointed out to many social issues related to the same. The students freely expressed their views and problems. The session concluded with distribution of chocolates to the students not just for their attention and involvement throughout the workshop but also to celebrate the promise they made to themselves. The promise, that they believe they are a gift of God to the society and by implementation of self hygiene and safety, they shall protect and take care of not just themselves but also of their friends in order to cherish and maintain this pure gift they are to the society and themselves.
